SKILLS

Linux | Shell Scripting | Jenkins | Docker | Python | AWS | Kubernetes | Terraform | Git | GitHub | Java

PERSONAL PROJECTS

File Management System(FMS) (09/2023 - 12/2023)
- We are building the File Management System with CRUD Operations and API Integration revolutionizes digital file organization by seamlessly merging cutting-edge technology with user-centered design. Through the core tenets of Create, Read, Update, and Delete (CRUD) operations, users gain unprecedented control over their files, while API integration opens doors to a world of connectivity.
